

TSM Symposium 2011

Tivoli Storage Manager: Benefit from Innovation

Hilton Dresden Hotel, 27-30 September 2011

Some attendee's feedback:

„The whole organization and information was good, well timed and distinctive. In my opinion the Symposium was a successful event in every way. This applies to the conference hotel, the chosen location, the lectures and the general program. I really liked the possibility to view a variety of products displayed by different firms and to gain an overview in demos. This helped small firms, which are largely unknown, to present their products. In summary, I can say that the event was successful in every way and I am looking forward to the next TSM Symposium which will hopefully take place in two years time.“

Robert Fijan, Deutsche Rentenversicherung Baden-Württemberg

"A wonderfully organised and very informative event!"

**Alexander Dunaevskiy, Leibniz
Rechenzentrum der Bayerischen
Akademie der Wissenschaften**

This was the first TSM Symposium I attended - and am very impressed. Due to the diligent selection of topics and highly qualified IBM speakers, System partners and renowned companies, GSE made sound insight into all important topics concerning TSM available to the participants. Fortunately the Symposium wasn't a marketing event, in fact it was a good mix of theory and practice with lectures, renowned experts and valuable field reports. To chose the Hilton Hotel in beautiful Dresden as the venue topped it off and made the TSM Symposium 2011 an unforgettable experience.

Fariborz Moradi, DACHSER GmbH & Co. KG

„The conference was a highlight in the once in a while hard life of a TSM administrator. There were a lot of good lectures with food for thought, possibilities to socialize and meet old acquaintances, in a lovely and interesting environment. Does it get any better than that?“

Angelika Leich, DESY

TSM Symposium 2011

Tivoli Storage Manager: Benefit from Innovation

Hilton Dresden Hotel, 27-30 September 2011

„The TSM Symposium enabled us to gain profound impressions of the product's architecture. Close contact with the manufacturer, the beautiful location in the heart of Germany and a great evening program topped off the event“

Thomas Baumann,
tiri GmbH

„I think this Symposium is very well organized. It's held at a great location in the centre of beautiful Dresden. Most of the presentations are interesting and useful. It has been a most positive experience. I would certainly recommend it to everyone who is interested in TSM.“

Charel Korthof, ING Bank
